

Multi-Speed Kitchen Countertop Blender with Grinding Attachment

This blender features a robust motor with multiple speed settings controlled by a rotary dial. A smaller, separate attachment is included, suitable for grinding nuts or spices.

Product Overview

Versatile Kitchen Blending Solution

This multi-speed countertop blender is designed for professional kitchen environments and demanding home use. Featuring a robust motor and a durable brushed stainless steel base, it provides consistent performance for a variety of tasks. The system includes a large-capacity glass blending jar for smoothies and soups, along with a dedicated grinding attachment specifically engineered for processing nuts and spices.
