

Multi-Spoke Alloy Wheel

This alloy wheel features a multi-spoke design and is constructed for enhanced durability. It is engineered to support a maximum load weight of 700KG.

Product Overview

High-Performance Multi-Spoke Alloy Wheel

This high-performance alloy wheel features a sophisticated multi-spoke design with a striking two-tone finish. Engineered for optimal fitment and durability, it offers a robust construction that ensures a smooth ride and excellent handling characteristics. Its intricate pattern adds a modern aesthetic to a wide range of vehicle makes and models.

Technical Specifications

Available Sizes	15 inch to 18 inch
PCD Configuration	4-100, 4-120, 5-100, 5-120

Design Features

Finish	Two-Tone
Spoke Style	Multi-Spoke
