

# Multi-Stage Air Purification System

This air purifier features a multi-stage filtration system to remove dust, pollen, smoke, and odors. It is designed for homes, offices, and other indoor environments.

## ADDITIONAL IMAGES

## Overview

### High-Performance Air Purification

The HS-KJ1201E is a versatile multi-stage air purification system designed to significantly improve indoor air quality. Featuring a robust three-layer filtration process including pre-filter, HEPA, and activated carbon, it effectively removes common airborne pollutants. With a compact footprint and quiet operation, it is an ideal solution for maintaining clean air in small to medium-sized residential or office environments.

## Performance Metrics

### Key Performance Indicators

**160 m3/h**  
CADR

**20 m2**  
Max Coverage

**2 million pcs/cm3**  
Ion Density

## Technical Specifications

### Electrical Requirements

Parameter	Value
Voltage	220-240V
Frequency	50Hz
Power Consumption	45W

### Dimensions & Weight

- Dimensions: 206 x 320 x 523 mm
- Net Weight: 4.6 kg
- Gross Weight: 5.5 kg

## Features

### Fan Speeds

Silence • Normal • High

### Smart Indicators

- Filter replacement reminder
- Touch button controls

### Filtration Stages

Pre-filter, HEPA Filter, Active Carbon

### Noise Level

40~55dB
