

Multi-Tier Electric Food Steamer with Timer

This electric food steamer has an elegant and streamline appearance. It features rapid steam generation and a timer function for optimal steaming.

Product Overview

Efficient Multi-Tier Steaming

This multi-tier electric food steamer features an elegant, streamlined design that enhances any kitchen workspace. It is engineered for instant steam generation, significantly saving both time and energy during food preparation. With its integrated timer function and convenient external water-filling system, users can achieve optimal steaming results without the need to interrupt the cooking process.

Key Features

Convenience Features

- Instant steam generation technology
- External water refilling capability
- Rotary dial timer with food icons
- Visible water level indicator
- Easy-to-clean separable steaming plates
