

Multi-Zone Mini-Split Air Conditioning System

This multi-zone mini-split air conditioning system features multiple indoor units connected to a single outdoor condenser. It is designed for efficient cooling and heating of multiple rooms or zones independently and includes remote controls for convenient operation.

Product Overview

Multi-Zone Climate Control

This multi-zone mini-split air conditioning system is designed to provide efficient cooling and heating for multiple rooms or zones independently. By connecting several indoor units to a single outdoor condenser, it offers a versatile solution for customized comfort throughout a building. The system includes remote controls for convenient operation and precise temperature adjustments in every individual space.
