Versatile Kitchen Solution

This multifunction food processor is designed to streamline kitchen tasks, offering 7-in-1 or optional 10-in-1 capabilities in a single unit. It combines powerful blending, chopping, and grinding functions with specialized attachments for kneading, emulsifying, and citrus pressing. Built with a durable stainless steel housing and a high-performance motor, it provides efficiency and reliability for both professional and home culinary environments.

Technical Specifications

Power Output	500 W
Voltage Range	100-240V AC
Frequency	50/60Hz
Speed Settings	2
Control Type	Rotary switch with pulse function

Design & Capacity

Main Bowl Capacity	1000 ml
Housing Material	Stainless steel
Stability	Anti-slip rubber feet, Easy-clean base

Functionality

Core Functions

- Chopping
- Shredding
- Slicing
- Granulating
- Kneading
- Emulsifying
- Citrus pressing

Optional Functions

- Blending
- Grinding
- Filtering

Compliance

Certified safety and compliance standards for international markets.

Certifications

CE • GS • EMC Compliant • LVD Compliant
