

Multifunction Machine Power Part

This is a versatile multifunction machine featuring a robust power part designed for demanding applications. The unit incorporates a high-performance engine, ensuring reliable power output and efficient operation.

Overview

Versatile Power Unit

This multifunction machine power part is engineered for demanding agricultural and industrial applications. It features a robust, air-cooled 4-stroke engine designed for reliable performance and easy maintenance. With its adjustable handle and advanced transmission system, this unit offers exceptional maneuverability and control for a wide range of attachments.

Engine Performance

Key Engine Metrics

15 HP

Max Output

3600 rpm

Rated Speed

420 CC

Displacement

Capacities

- Fuel Tank: 6 L
- Engine Oil: 1.1 L

Engine Type

Single Cylinder, Air-Cooled OHV, 4-Stroke, Horizontal

Transmission & Control

Transmission System

Gear Transmission (3 Forward + 3 Reverse)

Clutch Type

Hydraulic Wet Clutch

PTO Speed

990 rpm

Control Features

Adjustable Height Handle, Adjustable Sideways Handle, Differential Mechanism, Steering Brake

Physical Specifications

Dimensions & Weight

Metric	Value
Net Weight	105 kg
Dimensions (LxWxH)	110 x 65 x 85 cm
Tire Size	5.00-10 (500mm)
Axle Diameter	25 mm

Logistics

Container Loading Capacity

Container Type	Quantity
20GP	36
40GP	72
40HQ	108
