

Multifunction Rear Windshield Wiper Blade

This multifunction rear wiper blade provides optimal performance and durability. Its robust design ensures reliable operation in diverse weather conditions.

Product Overview

High-Performance Rear Visibility

This multifunction rear windshield wiper blade is engineered for optimal performance and long-lasting durability in diverse weather conditions. Featuring a robust construction and an aerodynamic profile, it minimizes wind lift and noise to ensure a smooth, quiet wiping action. Designed for precision and ease of use, the blade includes multiple adapters to guarantee compatibility with a wide range of vehicle models, enhancing safety through consistently clear rear visibility.

Key Features

Design Advantages

- Aerodynamic design minimizes wind lift
- Quiet operation technology
- Robust construction for durability
- Precise fit engineering

Compatibility

Multiple Adapters Included, Universal Fit

Performance

Performance Highlights

1 High

Weather Resistance

1 Low

Noise Level

Durability

Wear Resistant • Long-lasting
