

Multifunction Rechargeable Emergency Lantern with AM/FM Radio

This multifunction lantern features a fluorescent tube, AM/FM radio, and a siren/blinking alarm. It can automatically light up during power failures and operates on both AC and DC power, with dry cell battery compatibility.

Product Overview

Professional Emergency Preparedness

This multifunction rechargeable lantern serves as a comprehensive safety solution for power outages and outdoor emergency scenarios. It integrates high-output lighting with communication capabilities, featuring a built-in AM/FM radio alongside siren and blinker functions. Designed for versatility, the unit supports both AC and DC power operations to ensure reliable performance whenever needed.
