Product Overview

Advanced Pest Control Solution

This 5-in-1 multifunctional pest repeller offers a comprehensive approach to indoor pest management by combining ultrasonic and electromagnetic technologies. Designed for safety and convenience, it also features an integrated ionic air purifier to enhance indoor air quality while deterring rodents and insects. The device is easy to install, plugging directly into standard outlets, and provides a chemical-free, eco-friendly alternative to traditional traps.

Technical Specifications

Ultrasonic Frequency Range

30 KHz
Min Frequency

55 KHz
Max Frequency

Effective Coverage Area

200 sq meters

Power Supply Voltage

100-120V, 220-240V

Features & Compliance

Certifications

GS • CE • EMC • LVD • RoHS

Plug Types Supported

- VDE
- UL
- BS
- SAA

Device Controls

- Ultrasonic On/Off Switch
- LED Light On/Off Switch
