Overview

High-Efficiency Pillow Packing Solution

This multifunctional pillow packing machine is engineered for stable, high-speed performance across the food, pharmaceutical, and daily chemical industries. Featuring an intuitive Panasonic PLC control system with a touchscreen interface, it offers precise automation for film tracking, speed control, and cutting. Its robust design ensures reliability for diverse packaging needs while maintaining operational safety and ease of use.

Performance Metrics

Production Speed

150 pcs/min
Max Speed

5 pcs/min
Min Speed

Max Product Height

65 mm

Technical Specifications

Formed Bag Dimensions

Dimension	Range
Bag Length	80-350 mm
Bag Width	60-160 mm

Maximum Film Width

445 mm

Control System

Automation Features

- Panasonic PLC programmable control system
- Color photoelectric automatic tracking
- Bidirectional compensation mechanism
- Panasonic inverter stepless speed control
- Touch screen interface

Industry Applications

Industries Served

Food, Medicine, Daily Chemicals
