

Multifunctional Portable LED Safety Light

This multifunctional device combines a focused white LED flashlight with an orange emergency flasher. Designed with a pivoting stand, it can be used in emergency situations or as a general-purpose light source.

Product Overview

Versatile Emergency Illumination

This multifunctional portable LED safety light is engineered for reliability in demanding environments. Featuring both a powerful white LED flashlight for general illumination and a high-visibility orange emergency flasher, it serves as an essential tool for roadside assistance, emergency response, and general maintenance. The integrated pivoting stand allows for hands-free operation, ensuring light can be directed exactly where it is needed most.

Technical Specifications
