Overview

The SE01 Solar Power System includes solar charging capabilities and energy-saving bulbs for reliable, continuous power.

Versatile Solar Energy Solution

The SE01 Solar Home Lighting Kit is a comprehensive, multifunctional power system designed for both home lighting and outdoor emergency use. It integrates solar charging capabilities, a high-capacity 8000mAh battery, and multiple output interfaces to charge mobile devices, power LED bulbs, and provide entertainment via built-in radio and audio playback. This reliable, sustainable energy kit ensures you stay powered during outages or while camping, offering a seamless blend of utility and convenience.

Technical Specifications

Potable solar panel

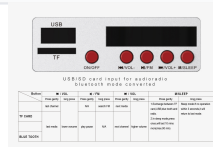

High Efficiency, DC3.5, DC5.5, Micro USB, Mini USB Output
 Chargeable for flashlight, powerbank, smart phone, etc
 Suitable for home, camping, working, exploration

High-efficiency portable solar panel compatible with various devices including flashlights, power banks, and smartphones.

Battery Capacity	8000 mAh
LED Lighting	28 SMD
Bulb Nominal Output Power	3 W
DC Output	4V / 2000mAh
USB Interface Output	5V / 800mA
Charging Inputs	5.5V/700mA Charger, 6V/500mA Solar Panel

Audio & Entertainment

Ultra-long Life Lead-acid Battery

Intuitive control panel featuring buttons for FM radio, volume control, sleep mode, and Bluetooth connectivity.

Speaker Power	3 W
Audio Input Ports	USB 2.0, SD Card
Frequency Range	200Hz - 20kHz

Physical Dimensions

Unit Dimensions	196 x 76 x 249 mm
Carton Dimensions	515 x 475 x 565 mm
Quantity Per Carton	10 pcs

Features

Key Functions

MP3 Player • LED Lighting • Power Bank • FM Radio • Bluetooth

Certifications	TUV, CE
