

Multifunctional Woodworking Machine

This versatile woodworking machine is designed for cutting, shaping, and planing wood. It features adjustable fences and guides for precise material control and repeatable cuts.

Product Overview

Professional Multifunctional Woodworking Solution

This versatile woodworking machine is engineered for high-precision cutting, shaping, and planing tasks. Constructed with a robust metal frame, it features a spacious work surface designed for stability and durability in professional environments. The unit integrates a powerful circular saw with a specialized side-mounted planing attachment, offering a comprehensive solution for surface finishing and repeatable material processing.

Technical Specifications

Model Identifier	L2325
Key Capabilities	Cutting, Shaping, Planing, Surface Finishing

Construction & Design

Precision Guides

- Adjustable fences
- Integrated material guides

Build Quality	Robust metal construction
---------------	---------------------------

Power & Operation

Power Supply	Electric motor with standard plug
--------------	-----------------------------------

Target Audience

User Suitability

Professional Woodworking Shops • Serious Hobbyists
