

Multipurpose Drill Bit

This drill bit is designed for drilling into a variety of materials. Constructed from high-speed steel, it offers durability and efficient material removal.

Product Overview

Versatile Multi-Material Performance

This professional-grade drill bit is engineered for exceptional versatility, allowing users to transition seamlessly between diverse materials including masonry, tile, wood, chipboard, soft metal, and plastic. Constructed from high-speed steel (HSS), it offers superior durability and heat resistance for extended service life. The optimized tip geometry and flute design ensure rapid material removal, making it an ideal choice for both corded and cordless drill applications.

Technical Specifications

Tool Compatibility

- Corded Drills
- Cordless Drills

Material Composition

High-Speed Steel (HSS)

Compatible Materials

Masonry, Tile, Wood, Chipboard, Soft Metal, Plastic
