

Mushroom Outdoor Patio Heater

This portable mushroom patio heater provides warmth and comfort in outdoor settings. Its mushroom-shaped reflector directs heat downwards, creating a cozy environment for patios and decks.

Product Overview

Portable Outdoor Heating Solution

This mushroom-style outdoor patio heater is a compact and efficient heating solution designed for versatility and warmth in outdoor settings. Engineered for portability, it features a robust aluminum reflector that directs heat downward, creating a comfortable environment for patios and decks. With safety-focused features like an Oxygen Depletion Sensor (ODS) and compatibility with standard portable fuel tanks, it offers a reliable way to extend outdoor usability.

Performance & Technical

Heat Output

11000 BTU

Heat Output

Fuel Compatibility

Propane, Butane

Dimensions & Weight

Component Dimensions

Component	Dimensions
Total Height	37.8"
Reflector Diameter	20.87"
Base Diameter	13.2" x 1.97"
Burner Unit	6.7" x 8"

Weight

- Gross Weight: 15.4 LBS
- Net Weight: 13.2 LBS

Safety & Features

Safety Systems

ODS (Oxygen Depletion Sensor) • Tip-over Safety Shut-off • Flame Failure Device
