

NACM90 Standard Machine Coil Chain

This high-strength machine coil chain is designed for heavy-duty applications. It meets NACM90 standards, ensuring reliable performance and durability for lifting, towing, and securing loads.

Product Overview

High-Performance Industrial Chain

The NACM90 Standard Machine Coil Chain is a high-strength solution engineered for demanding industrial applications, including lifting, towing, and load securing. Manufactured to meet or exceed rigorous NACM90 standards, this chain offers exceptional reliability and durability in construction, manufacturing, and transportation environments. Its precision-engineered links provide the optimal balance of strength and flexibility required for heavy-duty tasks.

Technical Specifications

Dimensional and Load Data

Trade Size	Material Dia (mm)	Working Load (kg)	Breaking Force (kN)
3.0	3	98	3.82
3.4	3.4	122	4.8
3.8	3.8	147	5.78
4.1	4.1	177	6.93
4.5	4.5	211	8.27
4.9	4.9	247	9.69
5.3	5.3	288	11.29
5.5	5.5	318	12.44
6.4	6.4	420	16.44
