

Naked Sport Motorcycle with Trellis Frame

This is a naked sports motorcycle featuring a trellis frame and a single-cylinder engine. The motorcycle is designed for urban commuting and recreational riding.

Overview

Naked Sport Motorcycle

This naked sport motorcycle is engineered for agility and performance, featuring a specialized 13A multi-twin spar trellis frame. Designed for urban commuting and recreational riding, it combines a lightweight 115kg build with a responsive 5-speed transmission. The inclusion of premium components like T6 aluminum yokes and a digital-mechanical hybrid speedometer ensures a superior riding experience.
