

Natural Bamboo Fiber Yarn

This natural bamboo yarn is made from 100% bamboo pulp fiber. It features good hygroscopicity, moisture liberation, and gas permeability.

Product Overview

Natural Bamboo Fiber Yarn

This natural bamboo yarn is crafted from 100% bamboo pulp fiber, offering a premium choice for diverse textile applications. It is engineered for superior comfort, featuring excellent hygroscopicity and moisture liberation properties. Its natural breathability and soft texture make it an ideal material for high-quality, eco-friendly fabric production.

Material Properties

Composition	100% Bamboo Pulp Fiber
Key Features	100% Natural, High Hygroscopicity, Moisture Wicking, Breathable, Soft Texture
