

NEMA 5-15P Hospital Grade Power Plug

This NEMA 5-15P hospital-grade plug is designed for use in medical facilities. It is constructed with high-quality materials to ensure durability and reliability.

Overview

Professional Hospital Grade Connectivity

This NEMA 5-15P Hospital Grade plug is engineered specifically for use in medical facilities and other demanding environments where reliability is critical. Constructed with high-quality materials, it features a robust strain relief design to prevent cable damage and an impact-resistant housing. It meets stringent UL and CUL safety standards, ensuring consistent performance and durability for essential medical equipment.
