

Neoprene 5mm Immersion Suit with Buoyancy Pillow

This immersion suit is constructed from 5mm thick neoprene for thermal protection. It features an integrated buoyancy pillow, eliminating the need for an extra lifejacket.

Product Overview

Professional Thermal Protection

This 5mm neoprene immersion suit is engineered for critical thermal protection during emergency situations in marine environments. It features a robust design with an integrated hood and secure front zipper closure to minimize cold water exposure. Enhanced with high-visibility reflective panels and an integrated whistle, this suit ensures safety and visibility for maritime professionals.
