

Network Communication Device with VESA Mounting

Network communication device equipped with a VESA-compatible mounting plate for easy installation. Its compact design and durable construction make it suitable for diverse communication applications.

Overview

Professional Network Communication Solution

This network communication device is engineered for reliable performance in demanding environments. Featuring a robust, compact design, it offers versatile installation options through its integrated VESA-compatible mounting system. Ideal for diverse communication applications, this unit ensures secure and flexible deployment for professional setups.

Installation & Mounting

Mounting Features

- Adjustable mounting bracket
- Secure attachment system
- Versatile positioning
- Flexible orientation

Mounting Compatibility

VESA-compatible
