

Ni-Cd AA 850mAh 2.4V Rechargeable Battery Pack

This Nickel-Cadmium rechargeable battery pack has a capacity of 850mAh and a voltage of 2.4V. It is designed for various electronic devices needing a compact and reliable power source, with AA cells connected in series.

Overview

Reliable Power Solution

This Nickel-Cadmium (Ni-Cd) rechargeable battery pack is engineered to deliver consistent and reliable power for portable electronic devices. With a capacity of 850mAh and a 2.4V output, it is configured using AA cells connected in series. This compact power pack is an ideal choice for applications such as cordless phones, remote control units, and various small portable electronics.

Technical Specifications

Battery Chemistry	Nickel-Cadmium (Ni-Cd)
Nominal Voltage	2.4 V
Capacity	850 mAh
Cell Size	AA
Wire Gauge	22AWG

Features

Common Applications	Cordless Phones, Remote Controls, Portable Electronics
---------------------	--
