

Ni-MH Battery Pack 1.2V 4000mAh

This nickel-metal hydride (Ni-MH) battery pack features high energy density and a long service life of up to 4 years. It is designed to maintain good charge retention even at temperatures of 55 degrees Celsius, making it ideal for emergency lighting applications.

Overview

High-Performance Ni-MH Battery Solution

This Nickel-Metal Hydride (Ni-MH) battery pack is engineered for reliability and sustained performance. Designed to deliver a nominal voltage of 1.2V and a substantial capacity of 4000mAh, it provides a stable power source for a variety of electronic applications. Its robust construction makes it a dependable choice for devices requiring consistent energy output.

Technical Specifications

Nominal Voltage

1.2 V
Voltage

Capacity

4000 mAh
Capacity

Chemistry Type	Nickel-Metal Hydride (Ni-MH)
Rechargeable	Yes

Application Suitability

Recommended Applications	Emergency Lighting, High-Temperature Environments, Portable Electronic Devices, High-Drain Devices
