

Ni-MH Rechargeable Battery Pack 2.4V 80mAh

Ni-MH rechargeable battery pack consisting of two 1/4AAA cells, with a voltage of 2.4V and a capacity of 80mAh. It is suitable for various electronic devices, offering a compact and lightweight power solution.

Product Overview

Compact Power Solution

This Ni-MH rechargeable battery pack is engineered for compact electronic devices requiring a reliable 2.4V power source. Composed of two 1/4AAA cells, it offers a capacity of 80mAh in a lightweight, space-saving form factor. It is an ideal solution for small-scale applications where consistent, rechargeable power is essential.

Technical Specifications

Battery Chemistry	Ni-MH (Nickel-Metal Hydride)
Nominal Voltage	2.4 V
Rated Capacity	80 mAh
Cell Configuration	2 x 1/4AAA

Key Features

Highlights

Rechargeable • Compact Size • Lightweight • 2.4V Output
