

# Ni-MH Rechargeable Battery Pack 3.6V 600mAh

This Ni-MH battery pack delivers 3.6V with a capacity of 600mAh. It is suitable for electronic applications requiring a rechargeable power source.

## Overview

### Reliable Rechargeable Power

This 3.6V Nickel-Metal Hydride (Ni-MH) battery pack provides a compact and dependable energy solution for various electronic devices. With a capacity of 600mAh, it is engineered to deliver consistent performance for applications requiring a rechargeable power source. Its robust design ensures compatibility and ease of integration for your specific electronic projects.

## Technical Specifications

Battery Chemistry	Ni-MH (Nickel-Metal Hydride)
Nominal Voltage	3.6 V
Rated Capacity	600 mAh

## Key Features

### Key Highlights

<b>3.6 V</b> Voltage	<b>600 mAh</b> Capacity
-------------------------	----------------------------

Application Type	Rechargeable, Electronic Devices, Power Source
