

Nickel-Cadmium Rechargeable Battery Packs

Nickel-cadmium (Ni-Cd) rechargeable battery packs are offered in various configurations. These battery packs are available in AAA and AA sizes, with capacities ranging from 300mAh to 700mAh and voltages from 6.0V to 9.6V.

Product Overview

Reliable Power Solutions

These Nickel-Cadmium (Ni-Cd) rechargeable battery packs are engineered for consistent performance in various industrial and consumer applications. Available in multiple configurations, these packs offer versatile voltage and capacity options to meet specific power requirements. Their durable design and wired connector interface ensure reliable integration into your devices.

Technical Specifications

Voltage Range

6 V

Minimum Voltage

9.6 V

Maximum Voltage

Capacity Range

300 mAh

Minimum Capacity

700 mAh

Maximum Capacity

Chemistry

Nickel-Cadmium (Ni-Cd)

Cell Sizes

AA, AAA

Configuration Details

Available Configurations

Cell Type	Capacity	Voltage
AAA	400mAh	7.2V
AA	300mAh	6.0V
AA	500mAh	9.6V
AA	700mAh	9.6V
