

Nitrile Coated Work Gloves with Knit Wrist Cuff

These black work gloves have a nitrile coating for enhanced grip and durability. Featuring a knitted wrist cuff, the gloves offer a secure and comfortable fit for various tasks requiring hand protection.

Product Overview

Professional Hand Protection

These nitrile-coated work gloves are engineered to provide a balance of durability and dexterity for various industrial tasks. The robust nitrile coating enhances grip and abrasion resistance, while the knitted wrist cuff ensures a secure and comfortable fit during extended use. Designed for professional environments, these gloves offer reliable protection without compromising hand movement.
