

# Nitrogen Gas Generator

This on-site nitrogen generator provides consistent performance and high quality. It produces nitrogen with purity up to 99.9995% and a flow rate of up to 5000Nm<sup>3</sup>/h.

## Product Overview

### High-Performance Nitrogen Generation

This professional-grade on-site PSA nitrogen generator is engineered for reliable, continuous gas production in demanding industrial environments. It provides high-purity nitrogen output up to 99.9995%, ensuring suitability for critical applications. With a robust flow rate capacity of 5000Nm<sup>3</sup>/h, the system is designed to scale with your production requirements while maintaining efficiency and high performance standards.

## Technical Specifications

### Maximum Flow Rate
