Product Overview

Professional Hearing Protection with Multimedia Integration

These noise reduction earmuffs are engineered for high-performance hearing protection in demanding environments such as construction sites and workshops. Beyond safety, they feature integrated Bluetooth 4.2 connectivity and an FM radio receiver, allowing for communication and entertainment without compromising protection. With a robust 1500mAh rechargeable battery and IPX3 water resistance, they are built to withstand the rigors of daily professional use.

Technical Specifications

SNR Rating

24 dB

Signal-to-Noise Ratio

Connectivity & Radio

- Bluetooth 4.2
- FM Radio (88-108 MHz)
- Listening Mode (LIS)

Power & Durability

Water Resistance Rating

IPX3

Battery Capacity

1500 mAh

Battery Type

Rechargeable Li-battery
