Product Overview

Professional Grade PVC Non-Adhesive Wrapping Tape

This high-quality PVC non-adhesive wrapping tape is engineered for versatile industrial applications, including HVAC, plumbing, and refrigeration systems. It provides a secure and reliable wrap without the use of adhesives, ensuring a residue-free application that is easy to adjust or remove. Built to withstand moisture, temperature variations, and environmental factors, this durable tape is an ideal solution for insulating and protecting pipes and fittings.

Technical Features

Material	High-quality PVC (Polyvinyl Chloride)
Adhesive Type	Non-adhesive / Residue-free
Key Properties	Moisture Resistant, Temperature Resistant, Residue-free, Chemical Resistant

Application Areas

Primary Applications

- HVAC system piping
- Plumbing fittings
- Refrigeration component insulation
- Pipe wrapping and protection

Performance Highlights

100 % Seal Reliability	0 None Adhesive Residue
