

# Non-Magnetic Stainless Steel Pipe Wrench

This pipe wrench is constructed from stainless steel, offering exceptional corrosion resistance. Its non-magnetic properties make it suitable for use in environments where magnetic interference is a concern.

## Product Overview

### Professional Non-Magnetic Solution

This high-performance pipe wrench is engineered from specialized non-magnetic stainless steel, ensuring reliability in sensitive environments where magnetic interference must be avoided. It maintains exceptional structural integrity across extreme temperature ranges, from -250 °C to 600 °C, without deformation. As an environmentally conscious tool, it offers a radiation-free and pollution-free solution for critical industrial maintenance and construction tasks.

## Technical Properties

### Magnetic Properties

Non-Magnetic

### Material Type

Stainless Steel

## Performance Metrics

### Temperature Resistance

**-250 °C**

Minimum Temperature

**600 °C**

Maximum Temperature

### Environmental Profile

No Pollution, No Radiation, Eco-Friendly

## Applications

### Recommended Industries

- Petroleum Industry
- Chemical Industry
- Power Generation
- Railroad
- Mining

## Product Specifications

### Available Size

14 inch
