Overview

Safety-First Hex Key Solution

This non-sparking hex key wrench set is engineered specifically for use in hazardous environments where flammable or explosive atmospheres are present. Constructed from specialized copper alloy, these tools are ideal for critical applications in the petrochemical, mining, and gas industries. Available with either a polished or electrostatic spraying finish, this set ensures both safety and durability for professional maintenance tasks.

Technical Specifications

Material	Copper alloy
Manufacturing Technique	Casting or forging
Size Range	3-40 mm
Finish Options	Polished, Electrostatic spraying

Compliance & Packaging

Certifications

ISO 9001 • UKAS

Packaging

Individual bag and box

Market Applications

Primary Industries

- Petrochemical
- Mining
- Gas Stations
- Railway
