Product Overview

Professional Notched Adhesive Trowel

This rectangular notched trowel is engineered for the precise and uniform spreading of adhesives and mortar. Featuring a durable, corrosion-resistant stainless steel blade, it ensures consistent material thickness for high-quality tiling, flooring, and plastering projects. The ergonomic, high-impact plastic handle is designed to provide a secure and comfortable grip, facilitating extended use in professional construction environments.

Technical Specifications

Blade Material	Stainless Steel
Handle Material	High-impact Plastic
Corrosion Resistant	Yes

Applications

Primary Applications	Tiling, Flooring, Plastering
