

NPK Compound Fertilizer Production Line

This production line is designed for manufacturing NPK compound fertilizer. It allows for the creation of fertilizers with customizable nitrogen, phosphorus, and potassium ratios.

Product Overview

High-Performance NPK Compound Fertilizer

This premium NPK compound fertilizer is formulated to provide a balanced nutrient profile with a total nutrient content of at least 40%. Featuring a precise N-P₂O₅-K₂O ratio of 15-10-15, it is designed to support robust crop growth and yield. The product adheres to strict quality standards and is packaged for professional agricultural use.

Technical Specifications

Total Nutrient Content

40 %
Total Nutrients

N-P ₂ O ₅ -K ₂ O Ratio	15-10-15
Execution Standard	GB15063-2001
Production License	XK13-206-02651
Registration Number	•œ¥(2005)4W0106÷
