Overview

High-Performance Dry Charged Automotive Battery

This NS60 dry charged lead-acid battery is engineered for reliable automotive starting power with a 45AH capacity. It features exceptional cold temperature resistance and superior cold cranking capacity, ensuring dependable performance in diverse climates. Designed for durability, the dry-charged technology allows for an extended shelf life before activation, making it an ideal choice for professional sourcing requirements.

Key Performance Indicators

12 V

Voltage

45 AH

Capacity

Technical Specifications

Battery Technology	Dry-charge lead-acid battery
Model Designation	NS60

Physical Dimensions

Size Specifications

Dimension	Value
Length	237 mm
Width	127 mm
Height	200 mm
Total Height	220 mm

Key Features

Core Characteristics

- Excellent cold temperature resistance
- Super cold cranking capacity
- Extended shelf life before activation
- Robust construction for durability

Compliance & Maintenance

Recyclable, Maintenance Required, Upper/Lower Level Indicators
