

Nylon Braided Lightning Cable

This Lightning cable is made with durable nylon fiber for enhanced protection and flexibility. The tangle-free design ensures easy storage and use.

Overview

Premium Nylon Braided Lightning Cable

This high-performance charging and data transfer cable features a durable nylon fiber construction that prevents tangling and enhances flexibility. Designed for longevity and daily convenience, it offers an extended 2-meter length suitable for use in the car, office, or at home. Utilizing high-gauge, low-impedance wire, this cable ensures efficient performance across a wide range of USB devices.

Technical Specifications

Length	2 m
Material	Nylon braided with pure copper core
Model	mx23

Features & Compatibility

Available Colors

Gold • Pink • Gray

Compatibility

- Samsung phones
- Tablets
- Bluetooth devices
- USB-enabled devices

Key Features

Tangle-free, High-gauge wire, Low impedance, Reinforced boot

Maintenance

Care & Longevity Tips

- Grasp the plug, not the cable, when disconnecting
- Avoid folding or bending the cable aggressively
- Loosely loop the cable for storage when not in use
