

Nylon Cable Ties

These nylon cable ties are designed for securing and organizing wires and cables. They provide tensile strength and resistance to abrasion and chemicals.

Product Overview

High-Performance Nylon Cable Ties

These durable nylon cable ties are engineered for professional-grade wire management and organization. Manufactured using premium PA66 material, they offer exceptional tensile strength and robust resistance to abrasion and harsh chemicals. They are suitable for a wide range of demanding applications, including electrical installations, automotive assemblies, and general-purpose industrial use.

Manufacturing Standards

Material	PA66
Production Experience	25 years
Workforce	400+ employees

Technical Specifications

Key Performance Metrics

540 N Tensile Strength	250 mm Length	7.6 mm Width
----------------------------------	-------------------------	------------------------

Model Specifications

Attribute	Value
Model ID	LH-HD-250-10
Dimensions	7.6mm x 250mm
Tensile Strength	540N

Capabilities

Suitable Applications	Electrical, Automotive, General Purpose, Cable Management
