

O-Ring 4043000129 for Wheel Loader

This O-ring is designed for use in wheel loaders. It provides a tight seal in hydraulic and pneumatic systems to prevent leaks and maintain pressure.

Product Overview

High-Performance Sealing Solution

This O-ring is a critical sealing component designed for use in heavy-duty wheel loaders. Engineered for durability, it ensures leak-free operation and helps maintain optimal system pressure in hydraulic or pneumatic applications. Available in both genuine and OEM configurations, this part is built to withstand demanding operational environments.

Technical Specifications

Part Number	4043000129
Equipment Compatibility	Wheel Loader

Quality & Compliance

Certifications

CE • ISO

Warranty & Support

- 6 months warranty on main components
- 100% compensation for incorrect parts
- 100% compensation for damages due to poor packaging
- Lifetime after-sales service

Quality Assurance	Five-stage inspection process with photo and video documentation provided prior to shipping.
