

Off-Road Dirt Bike Motorcycle

This dirt bike motorcycle is designed for off-road adventures. It features knobby tires for enhanced traction, front and rear suspension for a smooth ride, and a durable frame built to withstand rugged terrain.

Overview

Built for Rugged Terrain

The WV-DB-008 is a compact, high-performance dirt bike designed for off-road adventures and beginner riders. Featuring a robust 125CC 4-stroke engine and air-cooled rear suspension, it ensures a smooth and reliable ride. With its versatile electric and kick-start system, this motorcycle provides the perfect balance of power and ease of use for trail riding.
