

Off-Road Mountain Bike

This mountain bike is designed for off-road adventures and recreational riding. Featuring a durable frame and responsive suspension fork, it provides a comfortable and controlled ride on various terrains.

Overview

Rugged Off-Road Performance

This 700C mountain bike is engineered for versatility, offering a robust alloy frame paired with a reliable suspension fork for enhanced control on varied terrains. Equipped with a 24-speed drivetrain and responsive V-brakes, it delivers smooth shifting and confident stopping power for both trail riding and urban commuting. Designed with durability in mind, it features double-wall rims and high-traction tires to ensure stability and comfort on every adventure.
