Product Overview

Rugged Performance for Demanding Terrains

This off-road radial tire is engineered for exceptional durability and traction in mud and rough terrain. Featuring a robust tread pattern and high-quality rubber construction, it provides reliable stability and extended wear resistance. The design is optimized for heavy-duty applications including trucks, SUVs, and semi-trailer tractors, ensuring superior load-bearing capacity and operational safety.

Technical Specifications

Vehicle Compatibility

- Trucks
- SUVs
- Caravans
- Semi-trailer tractors

Tire Type

Radial

Terrain Compatibility

Off-road, Mud, Rough terrain
