

Oil-Filled Radiator Space Heater

This oil-filled radiator is designed for space heating. It features adjustable thermostat control, multiple heat settings, overheat protection, smooth-rolling casters and a compact design.

Overview

Efficient Heating Solution

This oil-filled radiator provides reliable and consistent warmth, utilizing green environmental conducting oil for efficient heat distribution. Designed for versatility, it features adjustable power settings and a flexible fin configuration ranging from 5 to 15 fins to suit various room sizes. With safety-focused features like overheat protection and an optional turbo fan, this heater is an ideal supplemental heating solution for both residential and office environments.
