

Oil Filled Radiator with Timer and Turbo Fan

This oil filled radiator features a 24-hour timer and a 400W turbo fan. It is designed for efficient space heating with multiple heat settings and thermostat control.

Overview

Efficient Space Heating Solution

This oil-filled radiator is engineered to provide consistent and reliable warmth for both home and office environments. Featuring customizable heat settings and optional add-ons like a turbo fan and humidifier, it offers versatile climate control to suit various user needs. Built with safety in mind, the unit includes overheat protection and utilizes green environmental conducting oil for efficient operation.

Technical Specifications
