

Oil-Filled Space Heater

This oil-filled radiator is designed for indoor heating purposes. It features multiple fins to ensure efficient heat dissipation, along with an adjustable control panel and easy portability.

Product Overview

Efficient Indoor Heating Solution

This oil-filled radiator is engineered to provide consistent and comfortable warmth for indoor environments. Featuring a multi-fin design for optimized heat dissipation, it ensures efficient thermal distribution throughout the room. Designed with user convenience in mind, the unit includes an intuitive control panel, integrated cord storage, and smooth-rolling wheels for effortless portability.

Design & Portability

Key Design Features	Multi-fin radiator, Portable, Integrated cord storage, Indoor use
Mobility	Yes

Controls & Operation

Control Panel	Adjustable settings panel
