

Oil Filter Pliers (60-90mm Range)

These oil filter pliers are designed for removing and installing oil filters ranging from 60mm to 90mm. Constructed with durable materials, these pliers provide a secure grip for efficient operation.

Product Overview

Professional Oil Filter Maintenance

These oil filter pliers are engineered for the efficient removal and installation of oil filters within a 60mm to 90mm diameter range. Featuring a robust, German-grade design, the tool ensures a secure grip on filter housings, minimizing slippage during operation. The ergonomic handle design enhances user comfort, making it a reliable choice for automotive maintenance professionals requiring durable and effective hand tools.
