

Oil-Free Air Compressor 0.5HP

This 0.5HP oil-free air compressor is designed for applications requiring compressed air. It features dual pressure gauges, a pressure regulator, safety valve, and drain valve, ensuring clean air delivery and reduced maintenance.

Product Overview

Compact Oil-Free Performance

This 0.5HP oil-free air compressor is engineered for versatility and clean air delivery, making it an excellent choice for light-duty tasks such as airbrushing and inflation. Its oil-free design significantly reduces maintenance requirements while ensuring consistent performance. With a compact, portable frame and quiet operation at 65dBA, this unit is perfectly suited for indoor environments where noise control is essential.

Performance Metrics

Motor Power

0.5 HP
Horsepower

Air Flow at 90 PSI	0.7 CFM
Sound Level	65 dBA

Technical Specifications

Tank Capacity	4 L
Pressure Range	95/125 PSI
Net Weight	23 lbs

Features

Maintenance

Oil-Free

Recommended Uses	Airbrushing, Tire Inflation, Pneumatic Tools, Indoor Use
