Overview

High-performance oil-free air compressor designed for industrial applications.

High-Efficiency Oil-Free Air Compressor

This industrial-grade air compressor features an oil-free design, ensuring clean air delivery suitable for sensitive applications while minimizing maintenance costs. Engineered for performance, it utilizes a multi-motor configuration to provide fast air storage and a high flow supply. The system is built with high-quality components for durability, low noise operation, and improved thermal management, making it an ideal choice for continuous, demanding work environments.

Technical Specifications

Advanced cooling system design featuring a wider mouth crank case and oversized fan for efficient heat dissipation.

Performance Metrics

380 L/min

Air Flow @ 8 bar

560 L/min

Air Flow @ 4 bar

Input Power	5800 W
Tank Capacity	120 L
Motor Speed (50Hz)	2800 rpm
Motor Speed (60Hz)	3400 rpm
Voltage	110-120V, 220-240V

Physical Attributes

Gross Weight	84 KG
Package Dimensions	137 x 40 x 77.5 cm

Key Features

Key Advantages

Oil-Free Operation • Fast Storage • High Flow Supply • Low Noise • Low Vibration • Overload Protection • Low Maintenance
