Overview

High-Performance Oil-Free Air Compressor

This professional-grade oil-free air compressor is engineered for industrial applications requiring clean, consistent, and high-flow air supply. Designed with modern industrial aesthetics, it features advanced cooling technology and a silenced motor to ensure low noise and vibration during operation. With a robust 260L tank capacity and rapid storage capabilities, this unit is built for reliability, efficiency, and minimal maintenance costs.

Technical Specifications

Technical specifications and performance data for the 260L model.

Input Power	8700 W
Tank Capacity	260 L
Motor Speed (50Hz)	2800 rpm
Motor Speed (60Hz)	3400 rpm
Voltage	110-120V, 220-240V

Performance Metrics

Air Flow Performance

570 L/min

Air Flow at 8bar

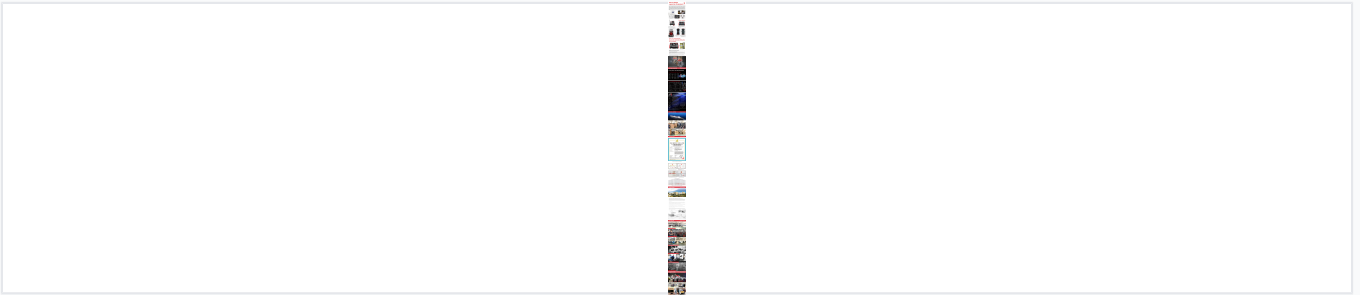

740 L/min

Air Flow at 4bar

Physical Dimensions

Package Dimensions	180 x 55 x 91.5 cm
Gross Weight	164 kg

Key Features

Overview of design highlights, cooling technology, and compliance certifications.

Key Advantages

Oil-Free • Low Noise • Low Vibration • Fast Storage • Overload Protection • High Flow Supply
