

Oil-Free Air Compressor with Performance Monitoring

This oil-free air compressor is suitable for a variety of industrial applications. Performance characteristics are displayed on a graph showing flow rate against pressure.

Product Overview

High-Efficiency Oil-Free Performance

The AP400 oil-free air compressor is engineered for demanding industrial environments requiring clean, reliable compressed air. This unit integrates advanced performance monitoring capabilities, allowing operators to track flow rates and pressure levels in real-time. Designed with precision, it offers consistent output suitable for sensitive applications where oil contamination is not an option.

Performance Metrics

Maximum Flow Rate

251 L/min

Flow Rate

Operating Pressure Range

0 - 8 Bar

Technical Specifications

Dimensional Schematics

Dimension Type	Value	Unit
Height Reference A	203.2	mm
Width Reference B	133	mm
Depth Reference C	185	mm
Mounting Distance	130	mm

Oil-Free Operation

Yes

Features

Monitoring Features

Real-time Pressure Monitoring, Flow Rate Tracking, Performance Curve Analysis
